

FOR RESTAURANTS AND CHOP BARS

Orders straight to the kitchen, bills that add up, and no missing cash.

MPOS runs your restaurant, chop bar or café from the phone, tablet or laptop you already own. Waiters send orders to the kitchen, bills split and merge without arguments, customers order from your QR menu on WhatsApp, and you see the day's money from anywhere.

1 Tables and orders

- Tables on screen: who is seated, what they ordered, what they owe
- Dine-in, takeaway and delivery, with the customer's name and notes
- Add-ons and choices on each dish (extra shito, no pepper)
- Open tabs, and bills moved, merged or split by item
- Customer display facing the counter, showing the order
- Promotions that apply themselves: happy hour, buy 2 get 1

2 Kitchen and staff

- Kitchen screen: new orders in, marked ready when done
- Kitchen and bar tickets on separate printers
- Voids, refunds and discounts need a manager
- Own login for each waiter, cashier and cook, with what their role may see
- Clock-in and clock-out, hours and wages
- Sales by waiter and cashier for any period

3 Payment and receipts

- Cash, Mobile Money (with its transaction ID), card and credit
- Split payments, service charge, gift cards and discounts
- VAT, NHIL and GETFund worked out under the 2026 rules, or tax off if you are not registered
- Receipts printed, on WhatsApp, or by SMS **cloud**
- MoMo goes straight to your own wallet: no fee from us on your takings

4 Bookings, QR menu and customers

- Your own page: **yourname.mpos.bz**, with a QR menu for every table **cloud**
- Orders on WhatsApp from your menu page **cloud**
- Table bookings online, with SMS confirmation and reminders **cloud**
- Reservations and a waitlist on screen
- Regulars on credit, with statements and loyalty points

5 Cash, stock and reports

- Open the till with a float, close it with a count; X and Z reports
- SMS to the owner when a till closes short **cloud**
- Ingredients and drinks stock, suppliers and purchases, low-stock warnings
- Sales, dishes, staff, payments, taxes and profit for any period
- Weekly report by email, and reports on your phone from anywhere **cloud**

6 Works the way Ghana works

- Keeps working when the network or light goes off; catches up on its own
- Runs on Android, iPhone, tablets, Windows laptops and Macs
- Several devices and branches, kept in step **cloud**
- Daily backup in the cloud: a lost phone loses nothing **cloud**
- Activity log of every void, refund and price change

cloud marks features that use the internet and run while your yearly renewal is active. Everything else keeps working on your devices even if you never renew.

Pay once to own it. Renew yearly to stay connected.

No monthly bills. One fee for the licence and setup, then each year a renewal of **45% of that fee** for your cloud, support and updates.

PAID ONCE

Licence and setup

- The MPOS licence for your restaurant, yours to keep
- Installed on your phones, tablets or laptops, anywhere in Ghana
- Your menu, prices, tables and printers set up for you
- Training for you, your waiters, cashiers and kitchen, wherever you are
- Every feature on page 1
- The till, tables and kitchen keep working even if you never renew

EVERY YEAR · 45% OF THE LICENCE FEE

Support, cloud and maintenance

- Cloud sync between all your devices and branches
- Your menu and booking page at yourname.mpos.bz
- SMS confirmations, reminders and receipts (monthly SMS allowance)
- Daily cloud backup and reports from anywhere
- New features and fixes, never an upgrade fee
- Support on WhatsApp from people who know your business

HOW YOUR PRICE IS WORKED OUT

1. A fee that fits your business

Priced by the size of your restaurant: tables and tills, kitchen and bar printers, branches, and how busy you are. A small chop bar pays far less than a busy restaurant with branches. Agreed with you and written on your invoice.

2. You pay it once

The licence is yours to keep. Setup, installation and training for your team are part of it.

3. Each year, 45% of that fee

Your yearly renewal is always 45% of the licence fee you paid, nothing more. It covers support, cloud, SMS and maintenance.

Renewal late? Your till keeps selling; after 7 days the cloud pauses until you renew. Nothing is ever deleted.

What you need

- A phone, tablet or laptop you already own: no machine to buy from us. The till works without internet
- Optional: a printer, scanner or cash drawer. We don't sell hardware; we'll point you to a supplier we trust, with no markup

Good to know

- Try every feature free for 14 days, no payment details needed
- Pay by Mobile Money; the details are on your invoice
- MPOS does not connect to food delivery apps or take online card payments, and is not yet certified for GRA E-VAT invoicing.

Let's set up your restaurant.
